

# Calling Features and Star Codes

Use these codes from your home phone

| Feature                               | Description                                                                                                                                                                                                                                                                                                                                                   | Turn On                    | Turn Off        |
|---------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------|-----------------|
| Anonymous Call Rejection              | Prevents anonymous calls from callers who block delivery of their Caller ID information (name and/or phone number)                                                                                                                                                                                                                                            | Dial <b>*77</b>            | Dial <b>*87</b> |
| Call Forward All Calls                | Forward incoming calls to another number                                                                                                                                                                                                                                                                                                                      | Dial <b>*72</b>            | Dial <b>*73</b> |
| Call Forward Busy                     | Forwards incoming calls to another number when your number is busy                                                                                                                                                                                                                                                                                            | Dial <b>*90</b>            | Dial <b>*91</b> |
| Call Forward No Answer                | Forwards your missed calls to another phone number if you don't pick up after a set number of rings.                                                                                                                                                                                                                                                          | Dial <b>*92</b>            | Dial <b>*93</b> |
| Call Return                           | Redials the most recent number that called you                                                                                                                                                                                                                                                                                                                | Dial <b>*69</b>            |                 |
| Call Screening                        | Allows you to create a list of callers who will receive an announcement saying you aren't available                                                                                                                                                                                                                                                           | Call WRT                   |                 |
| Caller ID Blocking                    | Prevents your name and number from being displayed on the Caller ID of the person you're calling                                                                                                                                                                                                                                                              | Dial <b>*67</b>            |                 |
| Do Not Disturb                        | Prevents calls from select phone numbers and gives callers a recorded message that lets them know you're not accepting calls currently                                                                                                                                                                                                                        | Dial <b>*78</b>            | Dial <b>*79</b> |
| Traditional Voicemail                 | Allows you to receive messages in a personal voicemail box you can easily listen to, save or erase your messages. Access your voicemailbox remotely by dialing 5001.                                                                                                                                                                                          | Dial <b>*99 or xxx1000</b> |                 |
| Unlimited 50+ Voicemail               | Allows you to receive messages in a personal voicemail box you can easily listen to, save or erase your messages. If you have new messages, you'll hear an intermittent dial tone when you pick up your phone. If your phone has a message indicator light, it'll blink when you have new messages. You can also use sub-mailboxes to keep messages separate. | Dial <b>*98</b>            |                 |
| Unlimited 50+ Remote Voicemail Access | Dial your home phone number, then press * before the recording ends, then enter your password followed by the # sign                                                                                                                                                                                                                                          |                            |                 |
